Healthy relationships, healthy teams

Sunnybrook Academic FHT
Team Awesome

We have had a number of changes in our staff over the past two years. Change can be hard, particularly when staff are already working at capacity. In interviews between staff and management, we determined that staff were feeling undervalued. We implemented Team Awesome as a way to celebrate all the amazing things that were happening in our team. Anyone can award a team member for something awesome they have done.

We have a number of strategies in place already to solicit patient feedback. However, our next steps will be to announce Team Awesome in our newsletter so that patients can also contribute to this program.
