- 4. Be inspired to offer "From Soup to Tomatoes" exercise programs in your own community.

# Writing your brief summary

#### Writing your abstract

- Before you start
- Title
- Presentation Style
- Target Audience
- Learning Objectives
- Brief Summary
- Evidence / Results
- Presenters / Contributors

In 250 words or less, please provide a brief description of the presentation.

#### This is where you:

- Describe why your presentation fits the theme
- Show how your initiative is useful and/or relevant to interprofessional primary care organizations
- Explain why your program/research/initiative is innovative

#### Examples online:

### Demonstrating evidence/results

#### Writing your abstract

- Before you start
- Title
- Presentation Style
- Target Audience
- Learning Objectives
- Brief Summary
- Evidence / Results
- Presenters /
  Contributors

In 100 words or less, please describe the **outcome measures** you have observed.

This can include clinical outcome measures, evaluation results, research findings, observations if still in early stages, etc.

**Look beyond the stats when demonstrating evidence.** Consider your results from the human perspective:

- What story do the statistics and measures tell?
- What did your initiative DO for your patients, team and/or community?

# Demonstrating evidence/results

#### Writing your abstract

- Before you start
- Title

- Target Audience
- Learning Objectives
- Brief Summary
- Evidence / Results
- Presenters / Contributors

Example: <u>Taking Collaboration to the Next Level...Dealing</u> with the Social Determinants of Health

**Quantitative:** Early results show a 16.5% decrease in Emergency Department visits and 16% decrease in hospital days.

Qualitative: Our clinic serves a population who otherwise only had access to care through the emergency department. We have formed many new partnerships, many which fall outside the traditional health care model, such as the police, the John Howard Society, shelters, Community Mental Health Association (CMHA), Children's Aid Society and the March of Dimes. Together, we address their health care and social needs through case conferences and cross referrals. Successfulness of this program can be measured by the number of referrals made by our partners.
