<b>Purpose of the Call:</b>	<p>The purpose of this call is to learn how the Department of Family Medicine at Queen's University was able to...</p> <ul style="list-style-type: none"> <li>• Raise awareness about medication safety issues - specifically medication reconciliation - in primary care.</li> <li>• Highlight the need for better communication and connectivity between hospitals, pharmacies, and primary care. (And how we can help each other.)</li> <li>• Suggest that primary care take on a leadership role in medication safety - we can (and should!) "own" the list.</li> <li>• Stress the importance of medication reconciliation as a continuous, interdisciplinary, and collaborative activity.</li> </ul>
