

Enhancing Treatment Outcomes for Depression: From Guidelines to Biomarkers

Presented by:

Sidney H. Kennedy, MD, FRCPC
Arthur Sommer Rotenberg Chair in Suicide and Depression Studies, St. Michael's Hospital
Professor, Psychiatry, University of Toronto
Scientist, Li Ka Shing Knowledge Institute and Krembil Research Institute

By the end of the session, participants will be able to:

1. Appreciate the range of pharmacological and neurostimulation options for treatment resistant depression.
2. Understand the potential of neuroimaging and molecular biomarkers to predict antidepressant response.
3. Recognize the complexities of integrating clinical and biological big data.

Friday, February 24, 2017

Noon – 1 pm EST

Classroom ABC

Also available via Telehealth & Webcast.

To Participate Through Telehealth:

Provide your Telehealth Coordinator TSM # 65167360 to confirm your site

To Participate by Live Webcast:

Search for Baycrest or TSM # 65167360 under live “public” events on <http://webcast.otn.ca>

Accredited (group learning) as defined by the Maintenance of Certification Program of the RCPS.

****Rounds are restricted to healthcare professionals in active practice, students, and Baycrest staff.***
