

Interplay Between Psychiatric Conditions and Shoplifting in Older Adults

Presented by:

**Matt Robillard, MD, FRCPC, Geriatric Psychiatrist
Baycrest**

At the end of the presentation, participants will be able to:

1. List common psychiatric conditions that may be associated with shoplifting
2. Provide an explanation of why some people may shoplift
3. Describe biopsychosocial framework for management

Friday, January 27, 2017

Noon – 1 pm EST

Classroom ABC
