Situation Report #63: COVID-19

Ministry of Health | Health System Emergency Management
Branch

March 27, 2020

Situation:

| Case count as of March 28, 2020 | | | | |
|------------------------------------|----------------|-----------------------|---------------|-----------------------|
| Area | Case count | Change from yesterday | Deaths | Change from yesterday |
| Worldwide total | 627,891 | +89,193 | 28,898 | +4,665 |
| Europe | 340,220 | +53,386 | 20,219 | +3,820 |
| China | 81,394 | +54 | 3,295 | +03 |
| Middle East | 49,639 | +6,565 | 2,689 | +171 |
| Asia & Oceania | 26,860 | +2,528 | 473 | +59 |
| Africa | 3,889 | +532 | 115 | +23 |
| Latin America and Caribbean | 12,387 | +2,297 | 243 | +61 |

| United States | 108,745 | +23,247 | 1,809 | +512 |
| Canada | 4,757 | +584 | 55 | +16 |

- 151 new cases were reported today in Ontario, bringing the cumulative total to 1144 (this includes eight resolved cases and 18 deaths).
- In Ontario, there are 8,690 persons under investigation with lab results pending.

Actions Taken:

- A Minister's Order was issued today directing health system providers to report PPE inventories on a daily basis to the ministry to optimize the availability of PPE to protect Ontario's front-line health care providers against exposure to COVID-19 and maintain a centralized repository of information respecting the availability of PPE supplies across the province (attached with reporting form).

Please Note: Home and Community Care providers are asked to use the survey they received yesterday. Long Term Care Homes are asked to use the link they were sent today through email.

- The ministry also issued an update on the PPE stewardship, procurement and distribution (attached).
- The Ontario government is [proclaiming](#) the Supply Chain Management Act to make sure critical supplies, equipment and services can be deployed to where they are needed most. These regulations will enable the Ministry of Government and Consumer Services and the Ministry of Health to centrally manage public sector supply chains. It will allow the collection of key data on inventories, orders and supply constraints and the development of a virtual inventory tool so that demand for crucial supplies are visible and trackable.
- The Ontario government [announced](#) new penalties to combat price gouging and hold offenders accountable for raising prices significantly on the necessary goods Ontarians need to protect themselves and their families from COVID-19.

| Canada | 4,757 | +584 | 55 | +16 |

- 151 nouveaux cas ont été déclarés aujourd'hui en Ontario, ce qui met le total cumulatif à 1 144 (incluent huit cas résolus et 18 décès).
- En Ontario, 8 690 personnes subissent des examens et attendent les résultats.

Mesures prises

- Un décret ministériel publié aujourd'hui ordonne aux fournisseurs du système de santé de déclarer quotidiennement au Ministère les stocks d'EPI afin d'optimiser la disponibilité de cet équipement pour protéger ainsi les fournisseurs de soins en première ligne contre l'exposition à la COVID-19 et de tenir un centre d'information sur la disponibilité d'EPI dans toute la province (joint au formulaire de rapport). Veuillez noter: les fournisseurs de soins à domicile et en milieu communautaire sont priés d'utiliser le formulaire de rapport qui leur a été envoyé hier. Les foyers de soins de longue durée sont priés d'utiliser le lien qui leur a été envoyé aujourd'hui par courriel.
- Le Ministère a aussi publié une mise à jour sur la gestion, l'approvisionnement et la distribution de l'EPI (version française en cours de traduction).
- Le gouvernement de l'Ontario a [proclamé](#) la *Loi sur la gestion de la chaîne d'approvisionnement* qui donnera les moyens de déployer des fournitures, des équipements et des services essentiels là où ils sont les plus nécessaires. Ces dispositions législatives permettront au ministère des Services gouvernementaux et des Services aux consommateurs, ainsi qu'au ministère de la Santé, de gérer de manière centralisée les chaînes d'approvisionnement du secteur public. Il sera ainsi possible de recueillir des données clés sur les stocks, les commandes et les contraintes d'approvisionnement, et de développer un outil d'inventaire virtuel qui rendra la demande de fournitures essentielles visible et traçable.
- Le gouvernement de l'Ontario a [annoncé](#) de nouvelles sanctions visant à lutter contre les pratiques d'augmentation abusive du prix des produits de première nécessité, à amener les contrevenants à répondre de leurs actes, et à protéger les Ontariens, les Ontariennes et leur famille face à la COVID-19.

Situation Report #49: COVID-19

Ministry of Health | Health System Emergency Management
Branch

March 14, 2020

Situation:

- Case counts as of March 14, 2020:
 - China: 80,824 cases; 3,189 deaths
 - Asia & Oceania: 10,893 cases; 123 deaths (South Korea - 72)
 - Europe: 44,840 cases; 1,796 deaths (Italy – 1,441)

- Middle East: 13,874 cases; 623 deaths (Iran - 611)
- Africa: 154 cases; 4 deaths
- Latin America and Caribbean: 273 cases; 2 deaths
- North America: 2,875 cases
 - United States – 2,657 cases; 50 deaths
 - Canada - 218 cases; 1 death
- 22 new cases were reported today in Ontario, bringing the cumulative total to 101 (this includes 5 resolved cases).
- In Ontario, there are 939 persons under investigation with lab results pending.
- The Government of Canada announced that a third person from the Grand Princess cruise ship who is currently in quarantine at CFB Trenton has tested positive for COVID-19.

Actions Taken:

- An initial COVID-19 Self Assessment Tool has been posted to the [Ontario Government](#) site. Individuals who suspect they have COVID-19 can consult this tool to determine whether and how to seek further care. An automated click-through version of the tool is under development.
- The ministry received a number of questions regarding the updated case definition as well as the recent announcements regarding travel:
 - The latest [case definition](#) shared yesterday clarifies that testing should continue to be conducted for individuals who are symptomatic and have travelled or have had close contact with someone who has travelled or a confirmed case. Asymptomatic individuals should not be tested. The ministry will continue to monitor and consider modifications to the testing criteria.
 - A number of travel-related announcements have been made over the past 48 hours. As this continues to be a rapidly-evolving area, the ministry will have further discussions with other jurisdictions and attempt to clarify recommendations as well as other questions (e.g. health care workers).
 - The current guidance from the Chief Medical Officer of Health generally requests returning travellers to self-monitor for 14 days. There are exceptions for children as well as for travellers to specific areas of concern (e.g. Hubei) who are being requested to self-isolate.
