Re: General Counsel and Executive Lead, Legal, Privacy and Risk, Ontario Health

I am very pleased to announce another appointment today to our Ontario Health senior leadership team. Please join me in welcoming Anne Corbett to the role of **General Counsel and Executive Lead, Legal, Privacy and Risk**, effective October 12th.

In her role, Anne will build our legal and risk management strategy, providing strategic direction, priority setting and leadership of the planning, development and management of legal services, privacy matters, enterprise risk management, corporate governance and corporate policy. Plus, she will provide expert advisory services across Ontario Health.

Anne is currently a Partner at Borden Ladner Gervais (BLG), a Canadian law firm. Her areas of practice include health law and corporate law with a special emphasis on governance and integrations. She advises health care organizations on a variety of issues including amalgamations, integrations, restructurings, governance, contracts, partnership agreements, risk management and regulatory compliance. She has been a BLG team lead in many health sector integration transactions, including with newly forming Ontario Health Teams.

Anne has a strong passion for and commitment to Ontario's health system and is inspired by our exciting mandate at Ontario Health. She is well-published and often speaks on topics such as governance, Ontario Health Teams and health care reform. She received her LLB at the University of Toronto. She also is a member of the Board at the William Osler Health System Foundation and is a former Board member at CorHealth and the Institute of Clinical Evaluative Sciences.

Please join me in warmly welcoming Anne to Ontario Health.

I also want to extend a very big thank you to Ashley Dent for assuming responsibilities as the Acting General Counsel, Corporate Secretary and Interim Chief Privacy Officer as recruitment for a permanent General Counsel and Executive Lead, Legal, Privacy and Risk was underway. Ashley will be returning to her role as Senior Counsel and Interim Chief Privacy Officer when Anne joins Ontario Health in October.

Regards,

Matthew
