Integrating digital health and virtual care
Thamesview Family Health Team
Let's get Digital! NP Virtual Case Conference Approach

Thamesview deployed the new virtual care platform: TELUS PS Virtual Visit. This new digital health care option is allowing the NPs when working remotely from home, to stay connected. This feature allows them to consult with one another and the patient during the patient visit, to assist with a diagnosis and treatment plan with complex patients or when other options may need to be considered for the patient.
