

COVID@Home Monitoring for Primary Care Connecting Call

Please join us to re-connect as we move into the fall. We will share some thoughts on the QI evaluation to date, review any new or emerging evidence and discuss the groups needs moving forward.

Target Audience: Primary care providers interested in using remote monitoring and best evidence to support their COVID+ patients in their home setting.

Wednesday September 8th, 2021

8:00 am – 9:00 am (EST)

[REGISTER HERE](#)

Speakers:

- Moderator: Janine Theben, Quality Improvement Specialist, Ontario Health
- Clinical expertise: Dr. Dee Mangin, Associate Chair, Research in the McMaster Department of Family Medicine, and clinician within McMaster Family Practice
- Other guest speakers TBD

Visit our on-line [ONE PAGER](#) to learn more about the resources available!

If you are a clinician or staff who participated in either the implementation of, or patient care for, the COVID@Home initiative, we invite you share your experiences via this brief survey [HERE](#)!
