

What will it cost?

- Estimates are between \$100-\$200 per person for every Canadian to have a primary care provider and team
- For example, a group of 10 FPs with 14,000 patients could add*
 - 3 NPs/PAs
 - 3 other professional staff (e.g. pharmacist, psychologist, SW, PT)
 - 2 nurses
 - additional office assistants, coordinators, manager

* \$130K per professional team member including overhead costs, \$100 per person
