

# BRIGHT LIGHTS AWARDS

2023

## Nomination: 2. Optimising teams' capacity and creating efficiencies

### Summerville Family Health Team

### Preventative Care Clinics

Summerville FHT initiated Preventative Care Clinics as part of our Quality Improvement Plan with the goal of increasing the proportion of eligible patients with up-to-date cancer screening tests. The dedicated clinics also provided an opportunity to increase internal efficiencies while meeting patient needs for a comprehensive care appointment. During the appointment with an RN and NP, Cervical, Breast, Colorectal, and Lung Cancer Screening are addressed. Osteoporosis and chronic disease screening are also ordered if applicable. Publicly funded immunizations are administered, and lifestyle education is provided for prevention of cancer and chronic disease. Referrals to other prevention programs may be initiated.
