Responsive Behaviours: Person-centered and Practical Approaches to Care

This webinar is for caregivers of adults with dementia.

Being a caregiver to someone with dementia can be challenging.

In this special webinar, caregivers will learn to recognize a “responsive behaviour” in people with dementia, tips for identifying the underlying cause of this behaviour, and person-centered and practical approaches to supporting the person you are caring for.

The impact of the COVID-19 pandemic on responsive behaviours, and transitions in care will also be discussed. Resources and tools will be shared to assist with knowledge to practice.

About our presenter:

Join Krista Schneider a Behavioural Supports Ontario (BSO) Regional Education Coordinator with the Alzheimer Society of Chatham Kent. Before joining the Alzheimer Society, Krista managed Adult Day Programs in addition to facilitating art therapy sessions for those living with dementia. Given her wealth of experience both in this field but also has a care partner for her mom who is a person living with dementia, Krista continues to be actively involved in health care system discussions to improve the experience for those living with dementia and their care partners.

Krista Schneider

Date: Thursday, January 28, 2021

Time: 12:00 PM – 1:00 PM

Location: Zoom
