

Register Now: Aggregate Primary Care Vaccination Report Info Sessions

Please join us to learn more about the new COVaxON **Aggregate Primary Care Vaccination Report**, as we discuss helpful strategies for accessing the reports and using the information to reach out to patients to understand their needs and help them understand the benefits of receiving the COVID-19 vaccine.

Target Audience: Primary care providers, Executive Directors, Clinical Managers, Decision Support or Administrative staff involved in **Patient Enrollment Models** of Care

Please register for one of the following sessions:

Spots are limited. The same content will be repeated each time.

July 21st 8 am. to 9 am.

Objectives:

- Understand where the data comes from and how to access it;
- Understand the features available with the new COVaxON Aggregate PC Vaccination Report;
- Examine how to use the Excel tool kits created by OntarioMD for three EMRs (TELUS, OSCAR & Accuro) to identify patients not vaccinated; and
- Discuss how to reach out to these patients and have conversations with them.

Join Ontario Health's online Community of Practice on [Quorum](#). Connect with other members, find valuable resources, ask questions! Sign up and request to join the group – the link to the Primary Care Vaccination QI Support CoP page is [HERE](#).

All meetings will be recorded and be posted to our unlisted [YouTube channel](#).

Offered in partnership with:
