

ASSOCIATION OF FAMILY HEALTH TEAMS OF ONTARIO

# BRIGHT LIGHTS AWARDS 2021

**Nomination: Demonstrating a community response to COVID-19**

**PRIME CARE FAMILY HEALTH TEAM**

## **COVID-19 Vaccines without Borders at Prime Care FHT**

After expressing our concerns to our local Public Health region and the Ministry of Health regarding lack of access to vaccines within our community of Halton, as a FHT we were desperate to help our patients as well as members of the general public receive their vaccine as soon as possible. We forged a wonderful relationship with our Public Health representative and we began working closely with the Region. We developed our very own COVID-19 Vaccine Team here at the FHT providing vaccines to all Ontarians who were eligible. We also approached various local large manufacturers and provided onsite COVID vaccines for their shift workers.
