

# BRIGHT LIGHTS AWARDS 2021

**Nomination: Demonstrating a community response to COVID-19**

**SOUTHLAKE ACADEMIC FAMILY HEALTH TEAM**

## **Immunization Services During COVID-19 (Student Vaccines and COVID-19 Vaccines)**

Our nursing team ensured our grade 7 and 8 students are/were up-to-date with their school vaccines because our local public health (PH) offices were no longer offering vaccine clinics in school this year due to COVID-19 (>300 student patients were triaged and immunized and are now up-to-date with their school vaccines). Our team also ran several COVID-19 vaccine clinics within our office immunizing ~1300 patients using online booking and check-in systems. We were able to streamline many administrative processes using online platforms and technology. We had many roles and disciplines helping us run these COVID-19 clinics.
