

# BRIGHT LIGHTS AWARDS 2021

**Nomination: Demonstrating a community response to COVID-19**

**Upper Grand FHT and FHO**

## **Local COVID-19 Drive-Thru Vaccination Clinic in Centre Wellington**

The Upper Grand FHO and FHT, successfully delivered a drive-thru COVID-19 vaccination clinic for residents of our region, targeting patients who had not been vaccinated at mass vaccination sites. Administering vaccines through the drive-thru model was a more complex process, requiring a significant planning; our team was able to develop patient flow processes and implement new digital technologies for the clinic to function safely and smoothly, while also improving the patient experience. The success of the clinic benefited from our local township's support providing in-kind space, while Public Health assisted throughout the planning and roll out of the clinic.
