

BRIGHT LIGHTS AWARDS 2021

Nomination: Small, rural, and Northern teams that have taken care

Manitoulin Central, Northeastern Manitoulin, & Municipality of Assiginack FHTs

Manitoulin Vaccine Successes

Manitoulin Island & District is a rural area of 4,796 km². Collaboration between the three Family Health Teams on Manitoulin Island has been a key part of the local vaccine distribution success. Through collaboration with our First Nations partners, Public Health Sudbury District, Manitoulin Health Centre, volunteers and community partners, our District achieved significantly high vaccine rates. Building upon trusted relationships, the Manitoulin FHTs have further strengthened ties with our patients and community.
