

# BRIGHT LIGHTS AWARDS 2021

**Nomination: Small, rural, and Northern teams that have taken care**

**PENINSULA FHT**

## **Protecting the Bruce Peninsula from COVID – Team Vaccine for the Win!**

The Peninsula FHT (PFHT) is one of the smallest FHTs within the province, supporting approximately 4,000 rostered patients within a rural community setting. The FHT staff & Physicians made protecting our community from COVID a priority since the early days of the pandemic. From proactive education and communication with residents, to working closely with community and healthcare partners, to organizing, creating and staffing a local Assessment Centre and Vaccine clinics, while preparing a mass casualty field hospital in collaboration with the local school equipped through local resources, and staffed by the clinic, the PFHT undertook all this work in addition to keeping all regular clinic duties going strong.
