

BRIGHT LIGHTS AWARDS

Nomination: It takes a team: collaboration inside and out

Chatham-Kent Ontario Health Team

Chatham-Kent Ontario Health Team Partners Collaborate to Host 'Pap-a-Palooza' Campaign with Clinics for Unattached Patients

Our aim is to provide primary care access for people to prevent worsening outcomes and promote a more efficient health care system. Following our collaboration in hosting multiple vaccine clinics throughout the community Thamesview FHT, Tilbury District FHT, Chatham-Kent FHT, Chatham-Kent CHC, Chatham-Kent OHT, and Chatham-Kent Public Health came together to offer rotating monthly pap clinics throughout our sites for those with a cervix who fall within the criteria and do not have a primary health care provider. This initiative highlights collaboration, an innovative health equity approach and improved patient experience.
