

# EMR Practice Enhancement Program (EPEP)

# EMR Practice Enhancement Program (EPEP)

- An evidence-based, integrated approach to EMR optimization
- Tailored to physicians and their staff who use a provincially-certified EMR
- Designed to continuously improve EMR use to enable the best medicine possible – realizing the full potential of the EMR to improve patient care and increase practice efficiency

## EPEP Benefits

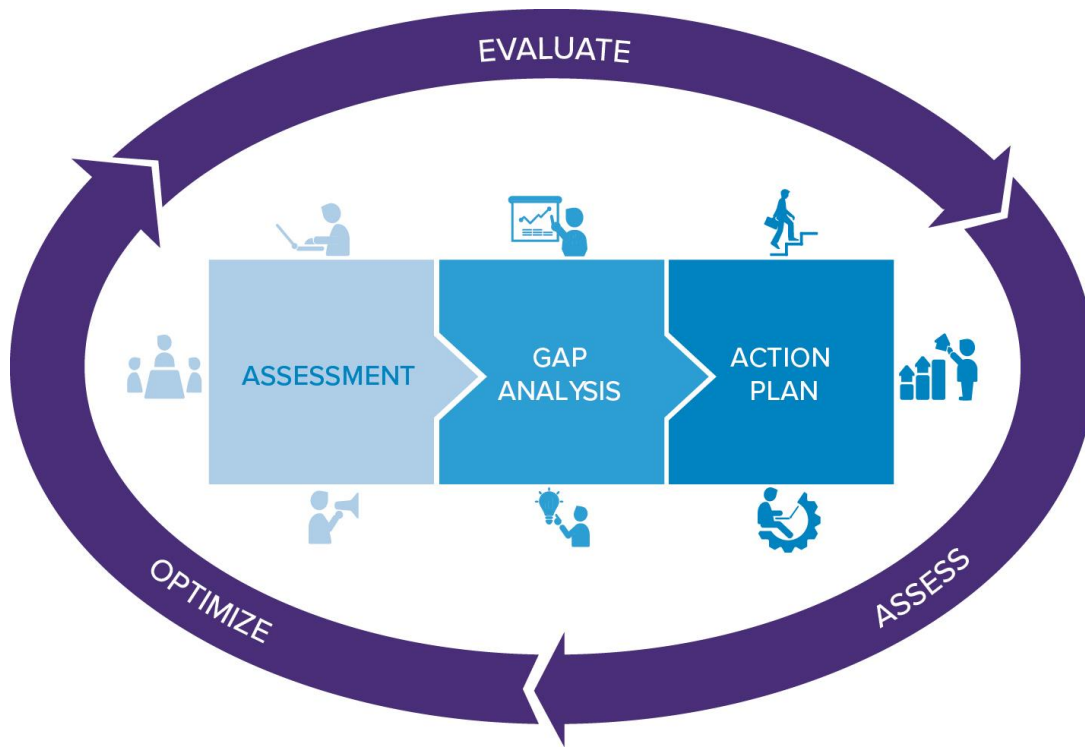

- Identify practice priorities and goals linked to clinical outcomes
- Customized plans and ongoing support to advance EMR use and capabilities
- Improvements to patient care / safety / quality

### Deliverables to Date\*

- 70 practices engaged
- 383 physicians supported
- 212 clinicians and admin staff supported

*\*As of April, 2017*

# Process & Methodology

## Analyze Workflow

Identify the root causes of data integrity issues

## Beyond Data Entry

Enhance clinical efficiency by enabling access to information at the point of care

## Harness the Power of EMR

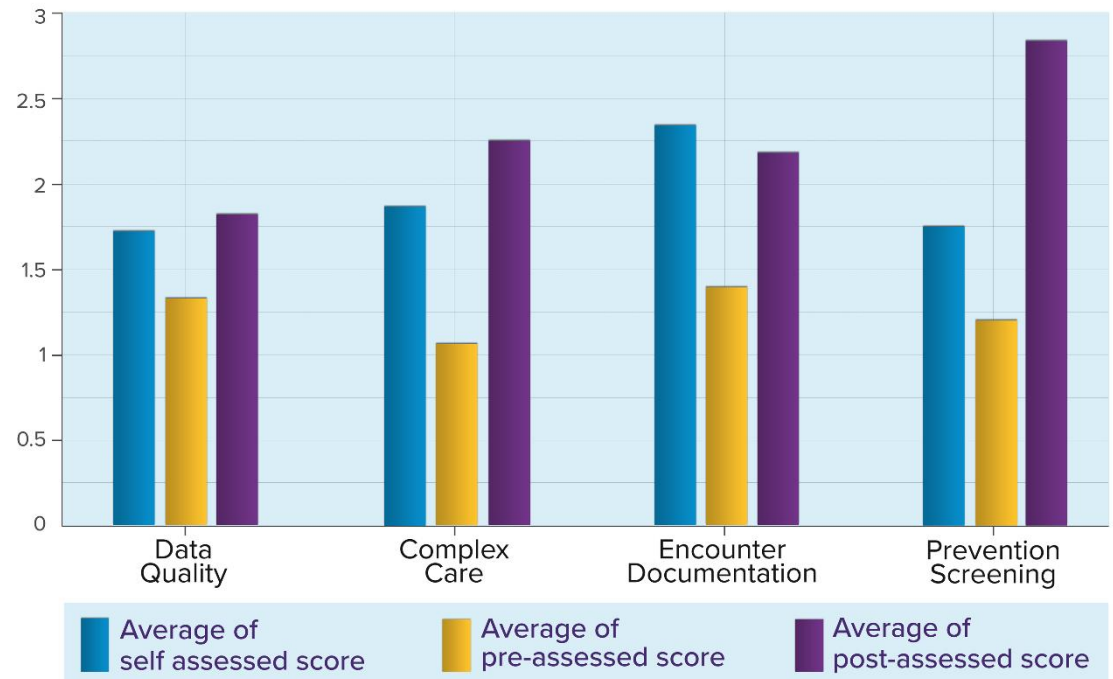

Improve practice efficiency and clinical effectiveness

# EMR Maturity Model (EMM)

# Outcomes

- 25% improvement in cancer screening compliance within 16 weeks of baseline capture
- 15% increase in smoking status capture within 8 weeks of baseline capture
- 37% improvement in use of standard CDM data entry tools for diabetes populations within 16 weeks of baseline capture

# Thank You!
