

Communication to Multiple Reviewer

Recognizing the philosophy of collaborative care and the emphasis that TVFHT has on teamwork, we utilize a multiple input rating process to assess the performance and ongoing professional development needs of our employees. This method gives those who work closest with the employee an opportunity to provide feedback on the individual's performance. Your name has been submitted as one of the participants to provide such feedback.

Below you will find a copy of the TVFHT *Performance Development Multiple Reviewer Survey*. We have done our best to ensure that the survey is as clear and concise as possible in order to keep the time necessary to complete to a minimum. We also ask that you provide comments and/or examples with each rating, as this will assist us in determining where the employee excels and/or where we may be able to assist them in their professional development plan. Your participation in this process is voluntary and all feedback will be collated onto a summary form.

To complete **Employee's Name** evaluation, please open the link below: Please complete by **Date(7-10 days)**.

We value your input and thank you for your participation. If you feel you cannot participate in this process, please notify me by email as soon as possible so that we can ask another participant.

Thank you.
